The Legend

Amidst the scorched sands of medieval Persia, there is a legend spun in an ancient tongue. It speaks of a time borne by blood and ruled by deceit.

It is within this war-torn land that a young Prince discovers a magic Dagger. Drawn to its dark powers, he is led to unleash a deadly evil upon the reaches of the Sultan's vast kingdom.

Aided by the wiles of a seductive princess and the absolute powers of the Sands of Time, the Prince stages a harrowing quest to reclaim the palace's cursed chambers and restore peace to the very fabric of Time itself. He must tread these dangers carefully, however. Because in this world, there is only one rule: Master the Sands... or be buried.

Characters

The Prince

The youngest son of King Sharaman of Persia. A gifted athlete and swordsman, the Prince is eager to prove himself in battle. Instead, his desire to win honor and glory leads him inadvertently to unleash an evil force upon the Sultan's kingdom. Saving the day will take all his wits, agility, and courage.

Farah

The beautiful daughter of a conquered Indian Maharajah, Farah has every reason to hate the Prince who has destroyed her world. But the Prince has the Dagger of Time – the only weapon that can defend against the horrors he has unleashed. So Farah must stay close to him, if she wants to survive...

The Vizier

A traitor in the Maharajah's service, the Vizier tricks the Prince into opening the forbidden Hourglass, unleashing the Sands of Time upon an unsuspecting world. Now the Vizier wants the Dagger of Time to fulfill his ultimate, diabolical plan.

The Sands of Time

The Sands of Time are a terrible, primordial substance that changes and corrupts every living thing it touches. Only through the Dagger of Time can the awesome might of the Sands be harnessed. The Dagger confers extraordinary powers on its possessor, enabling him (or her) to seamlessly bend the fabric of Time itself.

The Hourglass

Long ago, in the age of myths, the Sands of Time were sealed away within an impregnable Hourglass. When the Prince commits the unimaginable sin of unlocking the Hourglass, releasing the Sands, the reason for this precaution becomes evident.

The Dagger

More than a weapon, the Dagger of Time is the only container besides the Hourglass that is strong enough to hold the Sands of Time. Whoever wields the Dagger is granted the power to control Time, by using up the Sands within.

Sand Creatures

No living thing is immune to the destructive powers of the Sands of Time. Contact with the sand will transform any man, woman, or beast into a Sand Creature, a hideous mockery of its original form. Incapable of speech or feeling, Sand Creatures are driven by a blind, single-minded instinct to hunt down and kill anything that lives.

Because Sand Creatures are not alive, they cannot be killed. They can, however, be destroyed... with the Dagger of Time.

Human Sand Creatures

Animal Sand Creatures

The Vizier, Farah, and the Prince are the only inhabitants of the Sultan's palace to escape transformation by the Sands of

Time. They are protected by three artifacts, as ancient as the Hourglass itself.

The Vizier's Staff

Farah's Medallion

The Prince's Dagger

The Dagger of Time

Whoever holds the Dagger of Time gains extraordinary powers to bend and control the fabric of Time itself, by using up the Sands within.

Powers of the Dagger of Time

The Power of Revival (Rewind): Allows you to undo your mistakes - even your own death - by traveling back in time up to 10 seconds.

The Power of Delay (Slow Motion): Slows down time for everyone around you, giving you a slight but important edge in combat.

The Power of Restraint (Freeze): Stops time for a targeted enemy, allowing you to dispatch him or her with impunity.

The Power of Haste (Fast-Forward): Accelerates the passing of time, allowing you to defeat multiple enemies at the blink of an eye.

The Power of Destiny (Visions): Allows you to behold startling visions of the future.

Using the Dagger

To use the powers of the Dagger, you need to have sand in the Dagger.

Retrieve Sand

Refill Sand Tanks by retrieving sand from defeated Sand Creatures or loose Sand Clouds. Press to retrieve sand. Each retrieve fills one Sand Tank.

The Dagger can gain additional powers throughout the course of gameplay. The more you use the Dagger, the more powerful it becomes.

Power of Revival (Rewind)

The first power of the Dagger. Press and hold to turn back time. When you reach safety, release to resume play. Each rewind uses up one Sand Tank.

Game Interface

Life Bar

Shows the Prince's current state of health.

Hard falls, enemy attacks, and traps all cost the Prince life. If your life bar reaches empty, it's Game Over (unless, of course, you undo the mishap by rewinding...) Replenish the life bar by drinking water from a fountain or other sources.

Sand Tanks

Shows how much sand is in the Dagger. Each rewind empties one Sand Tank. Each time you retrieve sand from an enemy or a Sand Cloud, it fills one Sand Tank. The Dagger is also capable of growing new Sand Tanks in the course of the game.

Power Tanks

When you have retrieved enough sand, the Dagger grows its first Power Tank. Sand contained in Power Tanks cannot be used to rewind, but it gives you new powers including Delay (Slow Motion) and Restraint (Freeze). Power Tanks, like Sand Tanks, can be refilled by retrieving sand from enemies.

Time Circle

Shows how much time is available for the Power of Revival (Rewind). A full circle represents 10 seconds. Also serves as a timer for the Powers of Delay (Slow Motion) and Haste (Fast-Forward).

Farah's Bow

Farah can sustain only a certain number of hits from enemies before her bow breaks. If that happens, the next blow will kill her and it's Game Over... unless you can save her by using the Powers of Revival.

Don't forget you have the Dagger! As long as you have sand in a Sand Tank and time in the Time Circle, the game's not over... even if you're dead.

Rewards

Sands of Time

The same sand that flows in the veins of Sand Creatures can also be found loose, swirling throughout the palace. You may be lucky enough to encounter Sands of Time in the following forms:

Sand Vortex

A Sand Vortex may form in a particular place, either spontaneously, or as the result of a successful fight against Sand Creatures. Entering a Sand Vortex will give the Prince a brief, hallucinatory vision of the future.

Sand Vision

Visions give the Prince a glimpse of the dangers and opportunities that lie ahead as he finds his way through the palace. They also offer the player an opportunity to save the game.

Sand Cloud

When you see a cloud of loose sand like this one, grab it! Collecting eight Sand Clouds will cause the Dagger to grow an additional Sand Tank, permanently increasing its capacity to hold sand.

Water Is Life

Drinking water from a fountain or other source will restore a wounded Prince to health. Press and hold  to drink as much as you need until your life bar is fully replenished.

Fountain

Water Pool

Magic Fountains

The Prince can never be sure whether Magic Fountains are real or a figment of his imagination. One thing, however, is certain: Each time you drink from a Magic Fountain, it will permanently lengthen your life bar.

Traps

It is said that in all Persia, there is no host more generous than the Sultan of Azad. To protect the glories of his magnificent palace, the Sultan has built a defense system designed to shred the soldiers of any attacking army. From the moment these defenses are activated, the Prince ironically finds himself a most unwelcome guest.

Here are some of the traps the Prince will encounter as he strives to save the palace of Azad from the Sands of Time. Failure to evade a trap could result in injury or death.

The Prince's Attacks

Multi-enemy Combat

When surrounded by many enemies, use the Control Stick to target a particular enemy. It is not necessary to turn to face the enemy before you attack. For example, to retrieve sand from an enemy behind you, simply point the Control Stick toward the enemy and immediately press . The agile Prince will do the rest.

Basic Moves

Attack (Sword)

Use the Control Stick to target the enemy; then press to strike with your sword. Your sword can hurt Sand Creatures, but to finish them off, you need to use the Dagger.

Retrieve Sand (Dagger)

When you have knocked down a Sand Creature with repeated sword strikes, press to strike with the Dagger and retrieve its Sands of Time. This destroys the enemy for good and also refills one Sand Tank.

Block

Press and hold to block. For as long as you hold , your sword will deflect all enemy attacks from all directions. Later in the game, you may encounter enemies powerful enough to break your block.

Advanced Attacks

Vaulting Attack

Push the Control Stick toward your enemy; then press **[A]** to vault over him. As you start your descent, press **[B]** to strike the enemy from behind. Later in the game, you may encounter enemies that can block your vaulting attack.

Vaulting Attack + Retrieve

Follow up a successful vaulting attack by pressing **[D]** (Dagger) to do a quick retrieve and destroy the enemy.

Wall Rebound Attacks

When fighting near a wall, you can use the walls for rebound attacks. Point the Control Stick toward the wall and press **[A]+[B]** to launch a rebound attack straight at the enemy, or **[A]+[D]** to rebound and jump over the enemy's head.

Counter-Attack

Press and hold **[A]** to block, wait until your enemy strikes...and then press **[B]** to launch a devastating counter-attack. This takes a bit of practice, but if properly executed, you can floor enemies with a single blow. Later in the game, you may encounter enemies that can counter your counter-attacks.

Counter-Retrieve

Press and hold **[A]** to block...then, at the moment your foe strikes, press **[D]** to do a quick retrieve and destroy the enemy.

Power Attacks

The following attacks will become available once the Dagger grows its first Power Tank. The more you retrieve sand over the course of the game, the more Power Tanks you can get.

Power of Delay (Slow Motion) (Needs one full Power Tank)

Tap **[A]** briefly to go into slow motion for 10 seconds. This gives you an advantage over your enemies.

Power of Restraint (Freeze) + Attack (Needs one full Power Tank)

Press **[A]** to strike an enemy with the Dagger. This will freeze him in time. Then, while he is at your mercy, press **[B]+[B]** to set up and slice your foe in half, destroying him utterly without needing to do a retrieve.

Power of Haste (Fast-Forward)

When you have grown a full complement of Power Tanks, this gives you the ability to go into hyper-speed, stopping all your enemies. Haste consumes all your Power Tanks...but in the right situation, it is worth it! Press and hold **[A]**, and then press **[A]** for the Power of Haste. Use the Control Stick to target enemies; then **[B]+[B]** to finish each one off in turn.

Hints and Tips

- Don't forget to block! When fighting, press and hold  to protect the Prince from most enemy blows.
- During combat, don't just stand in one place! Use the Prince's acrobatic abilities to stay on the move: dodging, vaulting over enemies, and pushing off walls for rebound attacks.
- Pay attention to the cinematic presentation of each new place the first time you enter. The camera's path is a clue as to where the Prince needs to go.
- If you get stuck, try replaying the most recent vision for clues as to what to do next.
- Always keep an eye out for Sand Clouds, visions, and hidden entrances to Magic Fountains.
- Sword upgrades are available as you progress.
- Don't forget to rewind!
- Take advantage of Slow Motion to help you fight and to avoid traps.
- Use the first-person camera to look around, and the landscape camera to get the big picture of where you are.
- Don't fight your enemies one by one. When surrounded by many enemies, a more effective tactic is to divide your attacks among them in quick succession, using the Prince's superior agility to your advantage.
